

Bio-Identical Natural Hormone Replacement

Hormone Assessment

Mood swings, fatigue, depression, sexual dysfunction, restlessness and even weight gain may all be indicators of hormonal imbalance among men and women.

Bio-Identical Natural Hormone Replacement, a safe, simple and common intervention, starts with a complete Hormone Assessment that measures more than 30 critical hormones. This assessment helps physicians in diagnosing hormone imbalance and suggesting a tailored program of hormone replacement.

WellSpring Clinic is committed to the research, development and careful interpretation of Hormone Assessment. We will stay at the forefront of key assay as it relates to safe Natural Hormone Replacement.

Getting on the road to wellness requires a solid first step. With the information gained from a thorough assessment, WellSpring Clinic and Dr. Sam J. Walters can help you get on the road to life-long health.

Hormone Assessment

Estrone (E1)	Pregnanediol (PD)
